Safety Drills

NGE conducts a number of Safety Drills each year to ensure that all staff and students are familiar with safety procedures in the case of an emergency (e.g. fire, earthquake, lock-down).

Our staff does an excellent job of debriefing with students and letting them know these drills are "practice only" - we hope never to have to use them in a real-life situation. However, some children can still become anxious around safety drills. Therefore, we post our **first** practice for each drill on our monthly calendars to allow parents an opportunity to discuss these drills and help alleviate any anxiety they may cause.

If your child is particularly anxious around Safety Drills, please be sure to inform your classroom teacher and set up a plan for accommodating your child's needs.
